Role and Mission Statement

The Role of the University of Nebraska-Lincoln

The University of Nebraska-Lincoln, chartered by the Legislature in 1869, is that part of the University of Nebraska system which serves as both the land-grant and the comprehensive public University for the State of Nebraska. Those responsible for its origins recognized the value of combining the breadth of a comprehensive University with the professional and outreach orientation of the land grant University, thus establishing a campus which has evolved to become the flagship campus of the University of Nebraska. UNL works cooperatively with the other three campuses and Central Administration to provide for its student body and all Nebraskans the widest array of disciplines, areas of expertise, and specialized facilities of any institution within the state.

Through its three primary missions of teaching, research, and service, UNL is the state's primary intellectual center providing leadership throughout the state through quality education and the generation of new knowledge. UNL's graduates and its faculty and staff are major contributors to the economic and cultural development of the state. UNL attracts a high percentage of the most academically talented Nebraskans, and the graduates of the University form a significant portion of the business, cultural, and professional resources of the State. The quality of primary, secondary, and other post-secondary educational programs in the state depends in part on the resources of UNL for curricular development, teacher training, professional advancement, and enrichment activities involving the University's faculty, museums, galleries, libraries, and other facilities. UNL provides for the people of the state unique opportunities to fulfill their highest ambitions and aspirations, thereby helping the state retain its most talented youth, attract talented young people from elsewhere, and address the educational needs of the non-traditional learner.

The University of Nebraska-Lincoln has been recognized by the Legislature as the primary research and doctoral degree granting institution in the state for fields outside the health professions. UNL is one of a select group of research universities which hold membership in the American Association of Universities (AAU). Through its service and outreach efforts the University extends its educational responsibilities directly to the people of Nebraska on a state-wide basis. Many of UNL's teaching, research and service activities have an international dimension in order to provide its students and the state a significant global perspective.

The Missions of the University of Nebraska-Lincoln

The role of the University of Nebraska-Lincoln as the primary intellectual and cultural resource for the State is fulfilled through the three missions of the University: teaching, research, and service. UNL pursues its missions through the Colleges of Architecture, Arts and Sciences, Business Administration, Engineering, Hixson-Lied College of Fine and Performing Arts, Education and Human Sciences, Journalism and Mass Communications, Law, the university-wide Graduate Studies, and the Institute of Agriculture and Natural Resources which includes the College of Agricultural Sciences and Natural Resources, the Agricultural Research Division, the Cooperative Extension Division, and the Conservation and Survey Division. Special units with

distinct missions include the University Libraries, Extended Education and Outreach, International Affairs, the Lied Center for Performing Arts, the Bureau of Business Research, the Nebraska Educational Television System, the Sheldon Memorial Art Gallery, the University of Nebraska State Museum, the University Press, the Water Center, the Nebraska Forest Service, the Nebraska Statewide Arboretum, and Intercollegiate Athletics.

To capitalize on the breadth of programs and the multidisciplinary resources available at UNL, a number of Centers exist to marshal faculty from a variety of disciplines to focus teaching and research on specific societal issues and to provide technical assistance for business and industry in order to enhance their ability to compete in world markets. Additionally, interdisciplinary programs promote integration of new perspectives and insights into the instructional research and service activities.

The University of Nebraska-Lincoln promotes respect for and understanding of cultural diversity in all aspects of society. It strives for a culturally diverse student body, faculty, and staff reflecting the multicultural nature of Nebraska and the nation. UNL brings international and multicultural dimensions to its programs through the involvement of its faculty in international activities, a student body that includes students from throughout the world, exchange agreements with other universities abroad involving both students and faculty, and the incorporation of international components in a variety of courses and curricula.

Teaching, research, and service take on a distinctive character at the University of Nebraska-Lincoln because of its status as a comprehensive land-grant university. These traits provide opportunities for the integration of multiple disciplines permitting students more complete and sophisticated programs of study. Its land-grant tradition ensures a commitment to the special character of the State and its people.

The faculty is responsible for the curricular content of the various programs, and pursues new knowledge and truths within a structure that assures academic freedom in its intellectual endeavors. The curricula are designed to foster critical thinking, the re-examination of accepted truths, a respect for different perspectives including an appreciation of the multiethnic character of the nation, and a curiosity that leads to life-long learning. Additionally, an environment exists whereby students can develop aesthetic values and human relationships including tolerance for differing viewpoints.

Teaching

The people of Nebraska created UNL to provide its citizens with the highest quality of post-secondary education. Therefore, a fundamental mission of the University of Nebraska-Lincoln is teaching. The distinctiveness of the teaching mission at the University of Nebraska-Lincoln lies in its range of undergraduate majors, the character and quality of the faculty, and the extra-curricular environment. The University provides students with a wide choice of courses and career options which often expands the scope of their dreams and ambitions. The size and diversity of the University permits students to mature and to develop their own sense of self-confidence and individual responsibility. The course work is enriched by a faculty that is engaged in active research and creative activity and whose frame of reference is the national and international community of scholars.

Having created the first graduate college west of the Mississippi River, the University of Nebraska-Lincoln has historically recognized graduate education to be a central and unique component of its mission. Thus, UNL has primary responsibility in the State for graduate education, especially at the doctoral and professional levels. UNL is unique in possessing the scope of programs necessary for multidisciplinary instruction at the graduate level, a faculty involved in research necessary to support graduate education, and the libraries, laboratories, computer facilities, museums, galleries, and other ancillary resources required for graduate instruction.

Research

Basic and applied research and creative activity represent a major component of UNL's mission, a component that is recognized in Nebraska legislative statutes, and in its status as both a land-grant and an AAU research university. The quest for new knowledge is an essential part of a research university; it helps define and attract the type of faculty necessary to provide a university education; it distinguishes the quality of the undergraduate students' classroom experience; and it is the necessary component of graduate instruction.

As part of its research mission, UNL is dedicated to the pursuit of an active research agenda producing both direct and indirect benefits to the State. The special importance of agriculture, environment, and natural resources is addressed in its research priorities. In addition, UNL conducts a high level of research and creative activities that address in specific ways the issues and problems that confront Nebraska. Through their research and creative activities, faculty at UNL interact with colleagues around the world and are part of the network of knowledge and information that so influences our society. As a consequence, the University serves as the gateway through which Nebraska participates in and shares the gains from technological and cultural developments.

Service

The land-grant tradition creates for the University of Nebraska-Lincoln a special statewide responsibility to serve the needs of Nebraska and its citizens. In addition, many of its service aspects extend to regional, national, and international clientele. Special units such as Extended Education and Outreach, and the Cooperative Extension Division have specific responsibilities to bring the teaching and research resources of the University to a wider clientele. Through Cooperative Extension's partnership with federal, state, and county agencies, UNL has an outreach program in each county in the state. Moreover, all units of the University have a service and outreach mission. To help accomplish this mission, UNL delivers educational services through diverse ways including telecommunications methods and as a participant in the development of regional educational centers especially in those areas where it has statewide responsibilities. The University recognizes its obligation to extend the resources of the University beyond the campus and throughout the State. Serving the needs of Nebraska requires more than responding to the felt needs of the time. UNL must be visionary in its planning and must help the citizens of the state prepare for the future as well as deal with the present.

Summer Sessions

The University of Nebraska-Lincoln's Summer Sessions is the largest, most comprehensive summer studies program in the state. Summer Sessions at UNL is an integral part of the year-round academic program and is designed to meet the needs of the students by offering hundreds of courses through 70 departments. Options include participation in field work practica, internships, research with faculty or live theatre performances.

To further accommodate busy summer schedules, the program features several sessions of varying lengths. Classes are offered during the three, five and eight week sessions. These modules can be combined in several combinations to meet student needs.

Summer Sessions 2005 Student Credit Hours

Summer Sessions 2005 Student Credit Hours				
Session	Undergraduate	Graduate	Professional	Total
3 Week Pre-Session	6,414	724	198	7,336
8 Week	1,699	835	73	2,607
1st Five Week	13,120	5,787	230	19,137
2nd Five Week	11,020	4,263	366	15,649
Students in Omaha	488	107	-	595
Total	32,741	11,716	867	45,324

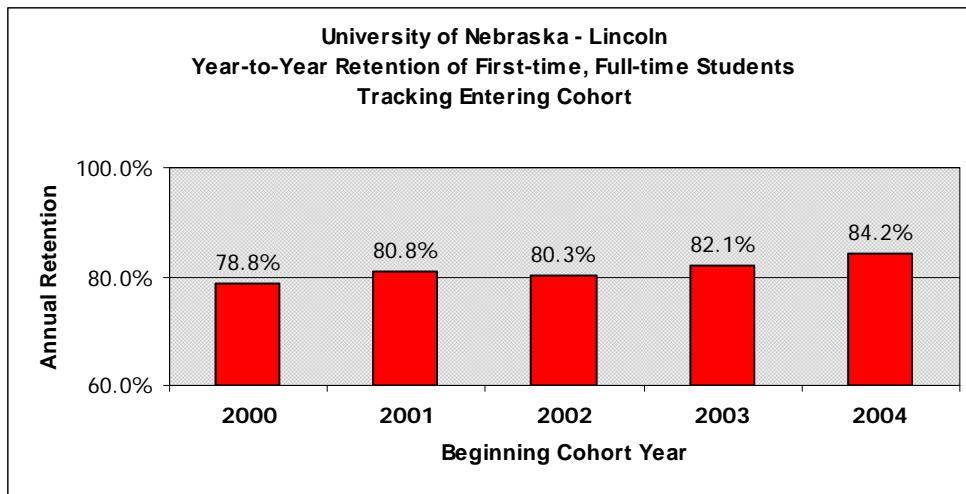

Note: Omaha has four summer sessions, but they are scheduled differently than UNL. "Students in Omaha" is total credit hours for all Omaha summer sessions combined. Omaha data is for students enrolled in classes delivered in Omaha but administered by Lincoln.

Dental Tuition (UNMC) -Dental tuition is charged at a flat rate per term. The resident rate is \$6,870 while the non-resident rate is \$18,559.00.

Other College of Dentistry Fees -Dentistry and Dental Hygiene students are required to pay Books and Instruments Fees and may be required to pay Equipment Replacement Fees.

University Program and Facilities Fees -In addition to tuition, all enrolled students (except students enrolled only in Distance Education "S" and "F" courses) must pay University Program and Facilities Fees based on their total hours of enrollment each semester. The rates are as listed below:

Hours of Enrollment	Rate
1 to 6 hours	\$202.10
7 or more hours	\$357.50

Technology Fee -A student technology fee was initiated the first semester 1997 to provide information technology resources to all UNL students. This year the fee is \$6.50 per credit hour with a \$97.50 limit each semester.

Library Fee -A library fee was initiated the first semester 2003. This year the fee is \$2 per credit hour.

Law Library Fee -A Law College library and professional skills fee of \$800 per semester will be assessed to Law students.

Engineering Fee -An engineering fee of \$10 per credit hour will be assessed beginning this year. This fee is assessed on all courses offered by the College of Engineering and Technology and the Departments of Computer Science and Engineering and Biological Systems Engineering (this includes Agricultural Engineering and Mechanical Systems Management).

Architecture Professional Fee -An architecture professional fee of \$18 per credit hour will be assessed to all courses offered by the College of Architecture.

Registration Fee -A registration fee of \$20 is due each semester a student registers for classes.

Late Registration Fee -A \$25 fee is due for processing an initial registration during the Late Registration period.

International Student Fee -A \$25 fee is due each semester for international students

Distance Education Fee - All distance education courses will be assessed a \$20 per hour fee.

Late Payment Fee -A late payment fee of \$20 is assessed each month on delinquent accounts by the Office of Student Accounts.

NCard -A charge of \$20 is assessed for your original NCard and each time a replacement card is needed.

Health Insurance -All nonimmigrant international students must have health insurance as a condition of their enrollment and will be automatically billed for health insurance, \$352.00 for the fall term and \$561.00 for the spring term, on their billing statements. Nonimmigrant international students taking less than seven credit hours will also be assessed the Health Center fee, \$117.37 each semester, on their billing statement. For those taking seven or more credit hours this fee is already paid as a part of their University Program and Facilities Fee.

Refunds

Fall Semester - Students who withdraw from, or drop, all first semester courses on or before August 29, 2005 will not incur any charges. For courses officially dropped or withdrawals processed after August 29th, a portion or all of the tuition and fees will be charged, depending on the date of the drop or withdrawal. The following percentages determine the amount of tuition and fees to be charged for dropped courses or withdrawals from the University.

Spring Semester - Students who withdraw from, or drop, all second semester courses on or before January 17, 2006 will not incur any charges. For courses officially dropped or withdrawals processed after January 17th, a portion or all of the tuition and fees will be charged, depending on the date of the drop or withdrawal. The following percentages determine the amount of tuition and fees to be charged for dropped courses or withdrawals from the University.

Period of Enrollment*	Period of Enrollment*	Chargeable Tuition and Fees
Fall	Spring	
August 22 - 29	January 9 - 17	0%
August 30 - September 2	January 18 - 20	25%
September 3- 9	January 21 - 27	50%
September 10 - 16	January 28- February 3	75%
After September 16	After February 3	100%

*The official period of enrollment is the time from the beginning of the semester through the day you drop or withdraw on eNRoll, or file your "Drop/Add Form" or "Cancellation/Withdrawal Form" with the Registration and Records, 107 Canfield Administration Building. Only in the case of a timely notification of unexpected hospitalization of the student, the death of a member of the student's immediate family living in the student's household, or an University error may the effective date of the drop or withdrawal be adjusted to the date of the occurrence of the event. Proper documentation will be required to determine the adjusted effective date.

Tuition and Fee Due Date - The tuition and fee due dates for the fall 2005 and spring 2006 terms are September 14, 2005 and February 8, 2006 respectively.

Distance Education "F" and "S" Courses - The type of course you are taking is noted in the online Schedule of Classes under "Group Code". In the printed Schedule of Classes, this same information is indicated under "Type."

¹ Typical tuition, required fees and room & board for a full-time undergraduate student for the full academic year as reported for Common Data Set.

² Higher Education Price Index (HEPI) measures the average relative level in the prices of a fixed market basket of goods and services purchased by colleges and universities each year through current fund educational and general expenditures excluding expenditures for research. It is a tool enabling schools to determine increases in funding necessary to maintain real purchasing power and investment. HEPI and major component values are reported for fiscal years 1961 through the latest completed fiscal year. For more information please go to the following website:

Definition of Full and Part-time Status: Undergraduate and law students enrolled for less than 12 credit hours are considered part-time students; when enrolled for 12 or more credit hours they are full-time students. Graduate students, professional students in Architecture and EHS Audiology enrolled for less than 9 credit hours are part-time and when enrolled for 9 or more credit hours are considered full-time students.

¹ In Fall 2003 Human Resources & Sciences and Teachers College combined to form the new College of Education & Human Sciences. In Fall 2004 Audiology was created as a professional degree.

² Full Time Equivalent is one third of the part time students added to the full time students.

University of Nebraska Award for Outstanding Research and Creative Activity

The University of Nebraska Award for Outstanding Research and Creative Activity was established by the President in consultation with the Board of Regents in March, 1978. The program of awards was recommended by the Executive Graduate Council of the Graduate College to recognize research and creative activity of national/international significance conducted at the University of Nebraska. Each award carries a \$3,500 honorarium. Recipients (1 or 2 yearly) are selected by an eight-member awards committee appointed by the Dean of the Graduate College from among the six major academic divisions of the Graduate College. These awards are the highest accolade the University can bestow in recognition of a faculty member's scholarship, research and artistic achievements.

Academic Program. Instructional program leading toward an associate's, bachelor's, master's, doctor's, or first-professional degree or resulting in credits that can be applied to one of these degrees.

Academic Support (Expenditures). Expenditures for the support services that are an integral part of the institution's primary mission of instruction, research and public service. Includes expenditures for libraries, museums, galleries, audiovisual services, academic computing support, ancillary support, academic administration, personnel development, and course and curriculum development.

Accrediting Agencies. Agencies that establish operating standards for educational or professional institutions and programs, determine the extent to which the standards are met, and publicly announce their findings.

Administrative Site. The campus with the ultimate academic, administrative and budgetary authority for an academic program.

Agency Funds. Agency funds include funds held by the University as a custodian or fiscal agent for others.

American Indian. A person having origins in any of the original peoples of North America or who maintains cultural identification through tribal affiliation or community recognition. (Definition prescribed by National Center for Education Statistics for use on the Integrated Postsecondary Education Data System reports.)

Asian. A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian Subcontinent, or Pacific Islands. This includes people from China, Japan, Korea, the Philippine Islands, Samoa, India, and Vietnam. (Definition prescribed by National Center for Education Statistics for use on the Integrated Postsecondary Education Data System reports.)

Association of American Universities (AAU). The Association of American Universities is an organizational group of 62 public and private institutions with significant graduate and research programs. The Association was founded in 1900 by Harvard, Columbia, California, and Johns Hopkins in Chicago. The University of Nebraska-Lincoln has been a member of the Association of American Universities since 1913; membership is a recognition of high institutional quality on a national basis.

Auxiliary Enterprises (Operations). Essentially self-supporting operations of the institution that exist to furnish a service to students, faculty or staff, and that charge a fee that is directly related to, although not necessarily equal to, the cost of the service. Examples are residence halls, food services, student health services, and the university bookstore.

Black, Non-Hispanic. A person having origins in any of the black racial groups of Africa (except those of Hispanic origin). (Definition prescribed by National Center for Education Statistics for use on the Integrated Postsecondary Education Data System reports.)

Budget. An expenditure plan for a given time period, usually a fiscal year, which includes an anticipated means of financing those expenditures.

College Work-Study Program (CWS). (Higher Education Act of 1965, as amended, Title IV, Part C; Public Laws 89-329, 92-318, 94-482, et.al; 42 USC 2751-27566.) Provides part-time employment to eligible postsecondary students to help meet educational expenses. This program provides grants to institutions for partial reimbursement of wages paid to students.

Comparison Institutions (Peer). Comparisons in higher education can be made in many topic areas, jurisdictional levels, and degrees of detail. Members of an institutional comparison group are selected primarily for their commonality and, in some instances, for specific differences. Although there are definitional differences, the terms comparison group and peer group are often used interchangeably.

Cooperative Extension. The Smith-Lever Act of Congress, passed in 1914, established a legal and fiscal basis for establishing cooperative extension work as the arm of the land-grant college system to provide educational programs in agriculture, home economics, and related subjects for persons not enrolled in a land-grant college. Enabling legislation passed by the Nebraska Legislature in 1915 authorized extension work to be carried on in the counties in cooperation with the University of Nebraska and the U.S. Department of Agriculture.

CorpNet. Nebraska CorpNet is a corporate training network that utilizes various types of technology to deliver University of Nebraska-Lincoln courses directly to workplaces in Lincoln and Omaha. CorpNet programming is made available at public locations across the state via satellite telecommunications.

Credit Hour. A unit of measure representing an hour (50 minutes) of instruction over a 15 week period in a semester. It is applied toward the total number of hours needed for completing the requirements of a degree, certificate, or other formal award.

Degree. An award conferred by a college, university, or other postsecondary educational institution as official recognition for the successful completion of a program of studies.

Delivery Site. The campus on which students physically attend classes to receive instruction from an academic program.

Dependent. Students whose financial aid status is such that they have access to parental support for paying for their postsecondary education.

Extended Education & Outreach: Extended Education & Outreach, in partnership with academic colleges, provides high quality distance education opportunities to the citizens of Nebraska and the world, so that learners can attain degrees or enhance their career/professional development regardless of location.

- **Department of Distance Education Services:** The Department of Distance Education Services extends the services of the campus to the distance learner. The department serves in a consulting role with academic units in supporting the educational needs of distance learners enrolled in any of the 13 graduate programs through UNL.
- **College Independent Study:** College Independent Study partners with 7 academic colleges to offers 86 undergraduate credit and noncredit courses from 31 academic departments. Students can enroll anytime and complete a course in as little as five weeks or take up to one year.
- **Independent Study High School:** Independent Study High School offers self-paced independent study courses for grades 9 through 12. Students can choose from more than 160 online and print courses to supplement their local curriculum or earn an accredited diploma. Nebraska's High School partners with schools, school districts, learning organizations, the Nebraska Department of Education and UNL academic units to deliver curriculum around the world.
- **Summer Reading:** Summer Reading program allows UNL faculty to offer additional summer courses and provides undergraduate students with the opportunity to earn credits without having to be on campus.
- **Fire Protection Technology:** Fire Protection Technology is an associate degree program awarded by the College of Engineering and Technology. Courses are offered on a three-year-cycle on the University of Nebraska at Omaha campus.
- **Instructional Design & Development:** The Department of Instructional Design & Development supports faculty engaged in distance education, helping identify teaching strategies that are effective in a technology environment. Instructional designers experienced in teaching, distance education, and instructional technologies consult on course design, as well as provide individualized hands-on development and production support.

Faculty. Includes both full-time and part-time faculty and chairpersons employed by UNL as of the fall census date (does not include NCTA faculty). "Other," "Equivalent," "Health" and "Research/Clinical" faculty are excluded.

Federal PLUS Loans. Federal PLUS loans are for parents who want to borrow to help pay for their children's education. These loans provide additional funds for education expenses and, like Federal Stafford Loans, are made by a lender such as a bank, credit union, or savings and loan association.

Federal Stafford Loans (formerly Guaranteed Student Loans). These are low-interest loans made to students attending school at least half-time. Loans are made by a lender such as a bank, credit union, or savings and loan association. Sometimes a school acts as a lender. These loans are insured by the guaranty agency in each state and reinsured by the federal government. Students must repay this loan.

Federal Supplemental Loans for Students (SLS). These are loans for student borrowers which provide additional funds for education expenses and, like Federal Stafford Loans, are made by a lender such as a bank, credit union, or savings and loan association.

Field Course. Credit-bearing course conducted at an off-campus location. Instructor is physically present at the off-campus site.

Financial Aid Package. Generally, one or more types of aid are combined to complete a student's financial aid package. For example, a student may be awarded one-half gift aid (grants or scholarships) and one-half self-help (loans or Federal College Work-Study). When students receive scholarships from outside agencies or through the University, these scholarships are included as part of the student's total aid package.

First-Professional. Students enrolled in the University of Nebraska-Lincoln College of Law, College of Architecture and College of Education and Human Sciences.

Fiscal Year. For the State of Nebraska the fiscal year begins July 1st and ends the following June 30th. The U.S. federal government's fiscal year begins October 1st and ends the following September 30th. Most federal grants are awarded using the federal fiscal year cycle.

Full-Time Student. Undergraduate and Law students enrolled for 12 or more credit hours. Graduate, College of Education and Human Sciences and College of Architecture students enrolled for 9 or more credit hours.

Government Grants and Contracts. Revenues received from governmental agencies that are for specific research projects or other types of programs. Examples are research projects, training programs, and similar activities for which amounts are received or expenditures are reimbursable under the terms of a government grant or contract. Includes Pell Grants.

Grant (Student Financial Aid). Awards which are based on financial need and do not have to be repaid.

Guaranteed Student Loan. See Federal Stafford Loan.

Higher Education Price Index (HEPI). The HEPI reports inflation/deflation for a national average college and university budget and is generally applicable to all higher education institutions. HEPI accounts for price increases/decreases in the goods and services purchased by colleges over time.

Hispanic. A person of Mexican, Puerto Rican, Cuban, Central or South American or other Spanish culture or origin, regardless of race. (Definition prescribed by National Center for Education Statistics for use on the Integrated Postsecondary Education Data System reports.)

Independent. A student is automatically self-supporting if:

- they are at least 24 years of age by December 31 of the award year (e.g., by December 31, 1995, for 1995-96);
- they are a veteran of the United States Armed Forces;
- they are an orphan or ward of the court;

they have legal dependents of their own other than their spouse;
they are married prior to filing the FAFSA (Free Application for Federal Student Aid)
they will be a graduate or law student during the academic year; or
they are determined to be so by University of Nebraska-Lincoln financial aid administrators.

Institutional Research. Institutional research is research conducted within an institution of higher education to provide information which supports institutional planning, policy formulation, and decision making.

Instruction Expenditures. Expenditures of the colleges, schools, departments, and other instructional divisions of the institution and expenditures for departmental research and public service that are not separately budgeted. Includes expenditures for credit and noncredit activities. Excludes expenditures for academic administration where the primary function is administration (e.g., academic deans). Also includes general academic instruction, occupational and vocational instruction, special session instruction, community education, preparatory and adult basic education, and remedial and tutorial instruction conducted by the teaching faculty for the institution's students.

Integrated Postsecondary Education Data System (IPEDS). IPEDS is the core postsecondary education data collection program in the U.S. Department of Education's National Center for Education Statistics (NCES). It was designed to help NCES meet its mandate to report full and complete statistics on the condition of postsecondary education in the United States. It is a single, comprehensive data collection system developed to encompass all institutions and organizations whose primary purpose is to provide postsecondary education. The IPEDS system is built around a series of interrelated surveys to collect institution-level data in such areas as enrollment, program completions, faculty and staff, and financing. IPEDS supersedes the Higher Education General Information Survey (HEGIS), a similar set of surveys that collected data from 1966 to 1986.

Land Grant/State University. The term "land grant" is derived from the enactment in 1862 of the Morrill Act, which specified that grants of public lands should be made to those states agreeing to the provisions of the Act. Monies derived from the sale of the lands were to be invested:

so that moneys so invested shall constitute a perpetual fund, the capital of which shall remain forever undiminished. . . [with an exception allowed later in the bill that no more than 10% of the capital funds realized could be expended for the purpose of lands for sites for experimental farms] and the interest of which shall be inviolably appropriated, by each State which may take and claim the benefit of this act, to the endowment, support, and maintenance of at least one college where the leading object shall be, without excluding other scientific and classical studies, and including military tactics to teach such branches of learning as are related to agriculture and the mechanic arts, in such manner as the legislatures of the States may respectively prescribe, in order to promote the liberal and practical education of the industrial classes in the several pursuits and professions in life.

In 1864, additional grants of land were made available to provide for "state universities" which were to have similar purposes without the suggestion of "practical" application of branches of learning.

Managerial/Professional Employee. One whose duties are primarily managerial or professional and who is exempt from the overtime provisions of the Fair Labor Standards Act. An exception to this exemption may be some technical and/or part-time employees.

NCES. The National Center for Education Statistics, which is the statistical branch of the Office of Educational Research and Improvement, a principal operating component of the U.S. Department of Education.

Non-Resident Alien. A person who is not a citizen or national of the United States and who is in this country on a visa or temporary basis and does not have the right to remain indefinitely.

Non-Resident Student. A student who is not a legal resident of the state in which he/she attends school. (See Resident Student).

Nonstate-Aided Budget. The nonstate-aided budget supports operations that are auxiliary to educational and general operations or are a result of grants and contracts awarded to the University. The nonstate-aided budget is

funded from revolving funds, federal funds and trust funds (grants, contracts, non-federal aid programs, maintenance of student loan programs, endowment funds, and agency funds).

Office/Service Employee. One who is paid hourly and who is subject to the state overtime law and the Fair Labor Standards Act.

Part-Time Student. Undergraduate and Law students enrolled for less than 12 credit hours. Graduate, College of Education and Human Sciences and College of Architecture students enrolled for less than 9 credit hours.

Peer Group. See Comparison Institution.

Pell Grant Program. (Higher Education Act of 1965, Title IV, Part A, Subpart I, as amended.) Provides eligible undergraduate postsecondary students with demonstrated financial need with grant assistance to help meet education expenses.

Perkins Loan Program (formerly National Direct Student Loans [NDSL]). (Higher Education Act of 1965, Title IV, Part E, as amended, Public Laws 89-329, 92-318, et. al; 20 USC 1087aa-1087bb.) Provides low interest loans to eligible postsecondary students (undergraduate, graduate, or professional students) with demonstrated financial need to help meet educational expenses.

PLUS. See Federal PLUS Loans.

Program (Academic). A combination of courses and related activities organized for the attainment of broad educational objectives as described by the institution.

Public Service Expenditures. Funds budgeted specifically for public service and expended for activities established primarily to provide noninstructional services beneficial to groups external to the institution. Examples are seminars and projects provided to particular sectors of the community and expenditures for community services and cooperative extension services.

Research (Academic). Three types of purposes guide research and the other creative and scholarly efforts of colleges and universities.

Instructional Research: This research contributes to the accomplishment of the objectives of instructional programs. Faculty research creates an environment of inquiry which is conducive to learning; students learn by participating in research; research activities provide stimulation to faculty which carries over into classroom teaching; and research produces knowledge to be taught.

Basic Research: The purpose of basic research is the production of knowledge per se.

Applied Research: Some research efforts in colleges and universities have specific missions directed at community and social problems, thereby tying these efforts to the institution's external service function. The agricultural experiment stations of the land-grant universities are specific illustrations of situations in which research is directed toward the solution of specific problems more than toward the production of knowledge per se.

Research Expenditures. Funds expended for activities specifically organized to produce research outcomes and commissioned by an agency either external to the institution or separately budgeted by an organizational unit within the institution.

Research Initiative. The Nebraska Research Initiative (NRI) was established by Governor Kay Orr and the State Legislature in 1988. NRI funds are budgeted permanently to the Central Administration of the University of Nebraska and are allocated each year to the individual campuses for targeted research activities.

Resident Student. A student who is a resident of the state in which he/she attends school. The University of Nebraska has been authorized to develop regulations and make determinations regarding Nebraska residency for tuition purposes. These regulations provide the bases upon which university staff determine whether an individual

qualifies as a Nebraska resident for tuition purposes. For specifics, contact the Office of Admissions.

Restricted Current Funds. Those funds available for financing operations but which are limited by donors or other external agencies to specific purposes, programs, departments, or schools.

Revolving Funds. The most common use of the term "revolving fund" is in reference to the revenues generated from operations which provide services on a user fee basis. These operations are usually separate and self-supporting. Examples are stores & service operations, residence halls, unions, health center, recreation center, vending and parking. These service areas are generally in the "non-state aided" budget, however the "state aided" budget also includes some "revolving" funded operations. Examples of state-aided revolving fund operations include cost centers set up for: lab fee assessments; high school and college extension classes; livestock and commodity sales generated as a byproduct of instructional, research and extension activities.

Satellite Course. Credit-bearing course conducted at an off-campus location. Usually involves situation where all students are present in one off-campus location but instruction is offered via telecommunications.

Scholarships. Awards based either on academic merit alone or on academic merit and financial need. They do not have to be repaid. Scholarships include such awards as grants-in-aid, training stipends, tuition and fee waivers and prizes.

Sponsored Programs. Programs funded from an outside organization or individual which contain provisions or restrictions on the use of the funds.

State-Aided Budget. The state-aided budget supports the educational and general operations of the University and is funded from state general fund appropriations and University generated cash funds (tuition, fees, etc.). Other funds that support the state-aided budget, to a lesser extent, include federal funds (Agricultural Research Division and Cooperative Extension) and revolving funds.

Student Credit Hours. The academic value of a course multiplied times the number of students registered for that course. If 50 students register for a 3 CH course, that class will produce 150 (3 CH x 50 students) student credit hours (SCH's).

Student Fees. See Tuition and Required Fees.

Student Headcount Enrollment. See Unduplicated Headcount.

Student Level. Student class level is self-reported and based on the number of credit hours passed. Credit hours transferred from other postsecondary institutions are included in this determination. The University of Nebraska-Lincoln defines the following class levels:

Freshmen - have earned less than 27 undergraduate semester credit hours

Sophomores - have earned from 27 to 52 undergraduate semester credit hours

Juniors - have earned from 53 to 88 undergraduate semester credit hours

Seniors - have earned at least 89 undergraduate semester credit hours

Unclassified - have students taking courses toward a degree or other formal award who have not been classified by academic level. This category could include a transfer student whose earned credits have not been determined.

Student Loans. Available to both the student and student's parents at low interest rates (5%-11%). Student loans are considered financial aid because of special low-interest rates and because they are established by the federal government. Repayment of most student loans does not begin until after graduation or when the student drops below half-time enrollment.

Student Services. Admissions, registration for classes, and activities which primarily contribute to students' emotional and physical well-being and to their intellectual, cultural, and social development outside the classroom. Ex-

amples are career guidance, counseling, financial aid administration, and student health services.

Supplemental Loans for Students. See Federal Supplemental Loans for Students (SLS).

Supplementary Educational Opportunity Grants (SEOG). (Higher Education Act of 1965, as amended, Title IV, Part A, Subpoint 2, Public Laws 89-329-92-318, 94-482, et al; 20 USC 10706-10706-3.) Provides eligible undergraduate postsecondary students with demonstrated financial need with grant assistance to help meet educational expenses. The grants are made directly to institutions of higher education, which select students for the awards.

Tenure. Faculty with continuous appointments.

Tenure-Track. Faculty with specific-term appointments or faculty with tenure awarded for a future date.

Tuition and Required Fees. Tuition is the amount of money charged to students for instructional services. Tuition may be charged per term per course, or per credit. Required fees are those fixed sums charged to students for items not covered by tuition.

Unclassified Student. A student taking courses creditable toward a degree or other formal award who cannot be classified by academic level. For example, this could include a transfer student whose earned credits have not yet been determined.

Unduplicated Headcount. The sum of students enrolled for credit with each student counted only once during the reporting period, regardless of when the student enrolled.

Unrestricted Current Funds. All funds, including institutional funds, received for which no stipulation was made by the donor or other external agency as to the purpose for which the funds should be expended.

White. A person having origins in any of the original peoples of Europe, North Africa, or the Middle East. (Definition prescribed by National Center for Education Statistics for use on the Integrated Postsecondary Education Data System reports.)
